

CAULFIELD HOUSE

1. STAIRCASE
2. LIVING ROOM
3. POOL / DECK
4. DINING ROOM

The brief for this project was to update a strongly styled 1970's house, maximising the provision of space and light.

The new extensions created a dramatic study/library and entrance hall to the front, whilst a largely glazed family room links external spaces and the formal dining area to create a flowing space, perfect for entertaining. Finishes are light and contemporary but with a warm texture and character.
