

DOMAIN APARTMENT

1. LIVING
2. LIVING / DINING

Designing a room around a single iconic feature demands bravery and an intuitive approach that can translate strongly decorative colour palettes into a living environment.

Attributes of this high level apartment included magnificent city views, substantial room sizes and spacious layout. The challenge was to allow these aspects to be a feature whilst also allowing the space to be comfortably inhabited.

The richness and boldness of the selected finishes complement the iconic Tim Maguire painting and act as a strong counterpoint to the views and glass / aluminium aesthetic of the base building.
