

LANGHAM HOTEL

HOTEL ROOMS REDEVELOPMENT

SOUTHBANK

The brief for the rooms at the Langham hotel was for a soft refurbishment to bring the decor of the rooms of the hotel into a more contemporary feel but to retain the strongly classical themes that represents the Langham brand.

This was achieved by maintaining key classical elements of the original neutral design and highlighting the space with rich accents and textures. Extensive use of dark patterned timber within the joinery and bedheads provide an air of restrained but rich elegance.
